Work Experience

Mesosphere GmbH

Hamburg, Germany | Oct. 2016 - Now

(since Nov. 2019)

Senior Software Engineer - Kubernetes team (remote)

Working in Go on Konvoy and Kommander, products deploying Kubernetes on AWS, GCP, and on-prem with
a set of monitoring addons (Prometheus, Kibana, Grafana, Kubecost) and infrastructure management.

- Certified Kubernetes Administrator by the Cloud Native Computing Foundation in February 2020.
- Engineering Manager Cluster Ops team

(Mar. 2019 - Sep. 2019)

- Product owner of the DC/OS API client and Command Line Interfaces, open source projects in Go.
- Synchronization between teams to release features that are implemented, tested, and documented on time.
- Improvements of the CI/CD processes to respond faster when facing customer issues.
- Software Engineer level 2 Cluster Ops team

(Sep. 2017 - Mar. 2019)

- Development of the Mesos CLI in Python, refactoring of the DC/OS CLI from Python to Go.
- Working on Apache Mesos to improve the tools used by developers and operators. Presented my work at MesosCon 2018 in San Francisco, name of the talk: Using and extending the new Mesos CLI.
- Software Engineer Site Reliability Engineering team

(Oct. 2016 - Sep. 2017)

- Development and use of tools made to test and deploy DC/OS on AWS using Python and Terraform.
- Monitoring and development of applications that use frameworks such as Marathon, Cassandra, and Kafka.

Beneto Software GmbH - Health Care Startup

Berlin, Germany Feb. 2016 - May 2016

Software Engineering Intern

- Development of a desktop application in Go to send sensitive health information in the cloud.

INRIA - French Institute for Research in Computer Science and Automation

Rennes, France

Software Engineering Intern

Apr. 2015 - Jul. 2015

 Integration of a container scheduler (Docker Swarm) for the backend of a platform developed with Ruby on Rails. Improvements of the UX in HTML/CSS/JS, management of developer environments using Vagrant.

MGS Informatique - Web Design Agency

Blois, France

Software Engineering Intern

May 2013 - Jul. 2013 | Apr. 2014 - Jun. 2014

- Web development for multiple customers using HTML/CSS/JS and PHP/MySQL.

Education

TU Berlin - KTH - University of Rennes 1

European Union

International Master's Programme in Cloud Computing Sep. 2014 - Sep. 2016 (Grad. Magna Cum Laude)

- Major in Cloud & Data Analytics, classes focused on creating scalable Web services.
- Two scientific papers written: Comparison of Container Schedulers and Parallel Self-Tuning Spectral Clustering on Apache Spark (master thesis), both reviewed by peers.

François Rabelais University

Blois, France

Bachelor of Computer Science

Sep. 2011 - Jun. 2014 (Grad. Cum Laude)

Object-oriented programming (Java), web services (Java EE), design patterns (Java), operating systems (C), front-end development (HTML/CSS/JS), networks (with practical sessions).

Personal Projects

Volt Europa AISBL (non-profit organization, 25,000 members)

https://www.volteuropa.org/

- Volunteering as lead of the European Tech team, working remotely with other volunteers across Europe.
- Managing a team of 7 people working on our websites, intranet, and infrastructure.

Adios

https://github.com/armandgrillet/adios

- Development of the first open-source advertisement blocker for iOS during a 3-week sprint.
- Back-end developed in Node.js, front-end in Swift. Application featured in Le Figaro.

Skills

- Development tools: Go and Python, Terraform and Ansible, TeamCity and Jenkins, Kubernetes and Mesos.
- Languages: Strong verbal and written communication skills in English and French, intermediate level in German.
- Workflow: Programming using VS Code, versioning using Git, agile project management using Jira.
